MUKTI

Let Us Serve the Neddy

Talented Students Sponsorship (TSS)

TALENTED STUDENTS SPONSORSHIP
by MUKTI

Talented Students Sponsorship is a sponsorship program, in effect since 2006, through which individual students are provided with the support required to get access to a structured education. Besides financial support, the sponsor can communicate with the student through exchange of letters as well as visits; thereby providing moral and value aided support as well. The sponsorship is designed to create a long-term relationship between the sponsor and the students being sponsored, with MUKTI serving as a bridge between the two parties.

Why this Project in Place:

- Mukti believes that education can bring real change into a person and educated high potential students will be instrumental in balanced development of our society.
- Financially challenged but talented high potential students from rural areas are often deprived from modern educational facilities and opportunities.
- Students from rural, undeveloped area are often challenged to acquire proper information for their career development.
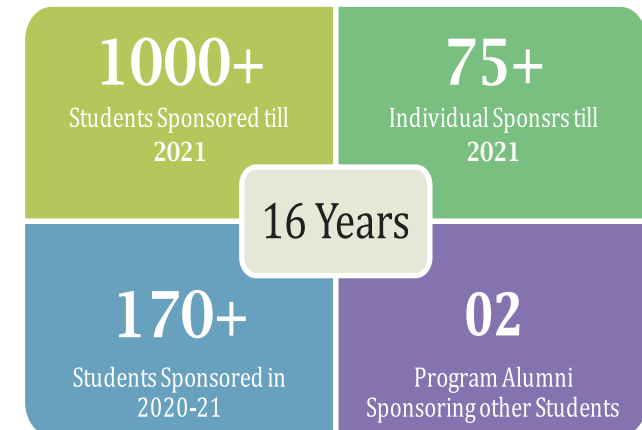

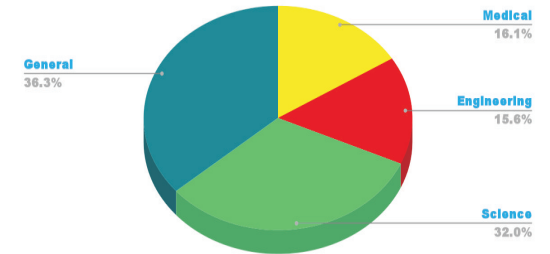

Key Objectives:

- To support and provide the opportunity to talented poor students to pursue their higher education.
- To assist the students to gain meaningful occupation after completion of his or her education.
- To install a sense of community service and value education among the students so that someday they will reciprocate similar humble act to spread kindness.
